Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Cosmetic Consumer	Choose the best cosmetic products based on price, ratings, brand, and skin type.	There is a large variety of cosmetic products, making it difficult to compare them.	Product information is scattered across different sources and lacks interactive visualizations.	Confused and uncertain while selecting the most suitable cosmetic products.

PS-2	A Cosmetic Brand Manager / Market Analyst	Analyze cosmetic product trends, customer preferences, and brand performance.	Existing reports are static and do not provide detailed insights.	They do not support interactive dashboards, filtering, or comparative analysis.	Challenged in making informed business decisions and identifying market opportunities.
